MUNDELEIN PARK & RECREATION DISTRICT

April 27, 2021

To the Board of Commissioners and Residents of the Mundelein Park & Recreation District:

State law requires that every general-purpose local government publish within six months of the close of their fiscal year, a complete set of audited financial statements. These statements are presented in conformity with generally accepted accounting principles (GAAP) and audited by a firm of licensed certified public accountants. This report is published to fulfill that requirement for the fiscal year ended December 31, 2020.

Responsibility for both the accuracy of the data, and the completeness and fairness of the presentation, including all disclosures, rests with the District. To the best of our knowledge and belief, the enclosed data are accurate in all material respects and are reported in a manner that presents fairly the financial position and results of operations of the various funds of the Mundelein Park & Recreation District. All disclosures necessary to enable the reader to gain an understanding of the District's activities have been included.

Financial Management and Control

The District has established a comprehensive set of internal controls that are designed to protect the District's assets from loss, theft, or misuse. These internal controls are also used to compile sufficient reliable information for the preparation of the District's financial statements in conformity with generally accepted accounting principles (GAAP). Because the cost of internal controls should not outweigh their benefits, the District's framework of internal controls has been designed to provide reasonable, rather than absolute, assurance that the financial statements will be free from material misstatements. Included with this report are all disclosures necessary to enable the reader to gain the maximum understanding of the Park District's financial affairs. The District has several policies to monitor and control spending. Monthly financial reports are provided to the Board with a Balance Sheet and Income Statement as well as a Treasurer's Report showing cash and investments as well as fund balances. An emergency appropriation policy requires the Executive Director to be granted Board approval to contract or purchase materials, equipment or services necessary to protect the health or safety of park users and employees. If such action requires amending the budget, the Board will take action to make such adjustments. The legal level of budgetary control is at the fund level.

GAAP require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and is meant to be read in conjunction with it. The District's MD&A can be found immediately following the report of the independent auditors.

District Profile

The Mundelein Park & Recreation District is located 34 miles northwest of Chicago in Lake County, Illinois. The District serves all residents of the Village of Mundelein, as well as residents of certain subdivisions in unincorporated Lake County and one subdivision in the Village of Long Grove. The District encompasses 12.3 miles and has a population of 37,687. The area is nearly fully developed with only 10.78 percent of the area assessed as unimproved/undeveloped.

Ethnically, the Village is fairly diverse. The Hispanic population is significantly above the State average, but the African-American population is significantly below the State average.

The District was established in 1954 and is governed by a Board-Manager form of government and provides recreation services and opportunities to all residents of the District and non-residents who choose to participate in programs. To accomplish this, the District developed a mission statement, "The Mundelein Park & Recreation District is committed to connecting the community with quality recreation through diverse programs, facilities and open space."

The Park District provides a full range of services that include recreation programming, park management, recreation facility management, preservation of open space and general administration. Recreation facilities include 34 park sites totaling 735 acres of park land, as well as, an aquatic park, community center, golf course, museum, senior center, dance studio, boat launch and beach.

Mission

The Mundelein Park & Recreation District is committed to connecting the community with quality recreation through diverse programs, facilities and open space.

Economic Condition and Outlook

The District saw rapid growth between 1990 and 2000 when the population increased from 21,215 to 30,935 (46%). Over the next decade, growth slowed but there was a housing growth spurt with the development of Grand Dominion, an "active adult community." In 2007 there were 406 single family new house construction permits issued. In 2010, permits dropped to 49. New housing in the District was on the rise in 2016, including a residential 40-unit multi-family building in the downtown, a new subdivision of 77 single-family homes, and a 36-unit apartment building on Diamond Lake. In 2017, the District budgeted for \$100,000 for "developer donations" for the construction of new homes. The actual amount collected was \$192,766. Compared to the rest of Illinois, Mundelein's median household income and value are above average, as is the percentage of residents with a bachelor's degree or higher.

The early part of the past decade the EAV had measurable growth, however from 2009 through 2014 the EAV declined. Beginning in 2015, EAV started to increase slightly. Residential development continues to expand in the District boundaries and District has secured Developer Donation agreements. Additional Impact Fees are anticipated to be received within two years.

Tax Year	EAV	Increase (Decrease)
2008	\$ 1,096,084,600	6.00%

Financial Policies

Due to COVID-19, the economy experienced significant challenges. The District has in place cash reserve policies to ensure funds are available for future operating, emergency and cash flow needs. Additionally, the District has set a policy that determines a goal of no more than 45% of revenue will be realized from property taxes in funds that are restricted by the tax cap. In 2020, the District exceeded the policy due to reduced charges for services as a result of the COVID-19 pandemic. Property taxes were 53.6% of revenue. In 2010, the District developed its Capital Asset Replacement Plan to plan for the eventual replacement of all capital assets and been funding specific capital needs over the last 10 years. The document will be updated within the Comprehensive Master Plan process.

Planning

The District has started updating its Comprehensive Master Plan and seeking opportunities to keep advancing the District. The Americans with Disabilities Act Transition Plan is reviewed during the budget process to ensure the highest priority modifications are included to allow patrons with disabilities to enjoy programs and facilities. The Capital Asset Replacement Plan is also reviewed to make sure capital equipment is replaced at the end of its useful life. This enables the District to operate programs and facilities more efficiently. The District started identifying two types of Capital Plans: Capital Maintenance Plan and Capital Development Plan. The District has started distinguishing capital projects within the appropriate plan. Additionally, the District has started a five-year financial forecast process to outline priorities.

Major Initiatives

The District had great success in 2020 during a pandemic undertaking projects and being recognized that included:

- Awarded the Certificate of Achievement for Excellence in Financial Reporting by the Government Finance Officers Association for the 2019 Comprehensive Annual Financial Report
- Secured three grants for a total of \$428,875
- Received Illinois Association of Park District's "The Best of the Best" Power of Parks Award for Innovation
- Replaced playground equipment at Asbury Park
- Replaced several sand traps at Steeple Chase Golf Course
- Replaced tennis court at Wortham Park
- Completed park and grounds maintenance and Community Center parking lot repaving project.
- Purchased park maintenance vehicle

Major Initiatives - Continued

- Established an E-learning Hub for children with working parents
- Held virtual programs to generate revenue
- Diamond Lake Daily Fees increased 258% or \$29,000 more than budget.

Independent Audit

State statutes require an annual audit by independent certified public accountants. The firm of Lauterbach & Amen, LLP was selected by the Park Board of Commissioners to conduct the 2020 fiscal year audit. The auditor's report on the basic financial statements is included in the financial section of this report.

Awards and Acknowledgments

The December 31, 2019 fiscal year marked the ninth year the District applied for and received the Government Finance Officers Association of the United States and Canada (GFOA) Certificate of Achievement for Excellence in Financial Reporting for its comprehensive annual financial report. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both the generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report meets the Certificate of Achievement Program's requirements and are submitting it to the GFOA to determine its eligibility for a certificate.

In closing, we thank the Board of Commissioners for their continued leadership and support of the efforts of the entire staff of the Mundelein Park & Recreation District.

Sincerely,

Ron Salski

INDEPENDENT AUDITORS' REPORT

April 27, 2021

Members of the Board of Commissioners
Mundelein Park and Recreation District
Mundelein, Illinois

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Mundelein Park and Recreation District, Illinois, as of and for the year ended December 31, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Mundelein Park and Recreation District, Illinois, as of December 31, 2020, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis as listed in the table of contents and budgetary information reported in the required supplementary information as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Mundelein Park and Recreation District, Illinois' basic financial statements. The introductory section, other supplementary information, supplemental schedules, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The other supplementary information and supplemental schedule are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other supplementary information and supplemental schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

MANAGEMENT'S DISCUSSION AND ANALYSIS

MUNDELEIN PARK AND RECREATION DISTRICT, ILLINOIS

Management's Discussion and Analysis

December 31, 2020

Our discussion and analysis of the Mundelein Park and Recreation District's (the District) financial performance provides an overview of the District's financial activities for the fiscal year ended December 31, 2020. Please read it in conjunction with the District's transmittal letter and the financial statements.

FINANCIAL HIGHLIGHTS

- The District's net position increased as a result of this year's operations. Net position of the governmental activities increased by \$601,193 or 1.42 percent.
- During the year, government-wide revenues totaled \$8,708,376, while expenses totaled \$8,107,183 resulting in an increase to net position of \$601,193.
- The District's net position totaled \$42,795,848 on December 31, 2020, which includes \$40,255,705 net investment in capital assets, \$706,478 subject to external restrictions, and \$1,833,665 unrestricted net position that may be used to meet the ongoing obligations to citizens and creditors.
- The General Fund reported a deficit this year of \$357,614, resulting in ending fund balance of \$2,420,490, a decrease of 12.9 percent.
- The District retired \$405,000 in outstanding long-term debt during the year and did not issue any new debt.

USING THIS ANNUAL REPORT

This annual report consists of a series of financial statements. The Statement of Net Position and the Statement of Activities provide information about the activities of the District as a whole and present a longer-term view of the District's finances. Fund financial statements are also in the Basic Financial Statements. For governmental activities, these statements tell how these services were financed in the short term as well as what remains for future spending. Fund financial statements also report the District's operations in more detail than the government-wide statements by providing information about the District's most significant funds.

Management's Discussion and Analysis

December 31, 2020

USING THIS ANNUAL REPORT - Continued

Government-Wide Financial Statements

The government-wide financial statements provide readers with a broad overview of the District's finances, in a matter similar to a private-sector business.

The Statement of Net Position reports information on all of the District's assets/deferred outflows and liabilities/deferred inflows, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating. Consideration of other nonfinancial factors, such as changes in the District's property tax base and the condition of the District's parks and recreation facilities, is needed to assess the overall health of the District.

The Statement of Activities presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the District that are principally supported by taxes and charges for services. The governmental activities of the District include general government and culture and recreation.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District are considered governmental funds.

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the District's near-term financing requirements.

MUNDELEIN PARK AND RECREATION DISTRICT, ILLINOIS

Management's Discussion and Analysis

December 31, 2020

USING THIS ANNUAL REPORT - Continued

Fund Financial Statements - Continued

Governmental Funds - Continued

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate the comparison between governmental funds and governmental activities.

The District maintains four individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General, Recreation, Debt Service and Capital Projects Funds, which are all considered major funds.

The District adopts an annual appropriated budget for all of the governmental funds. A budgetary comparison schedule for these funds has been provided to demonstrate compliance with this budget.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the District's I.M.R.F. employee pension obligations, the District's total OPEB obligations, as well as budgetary comparison schedules for the General Fund and Recreation Fund.

Management's Discussion and Analysis

December 31, 2020

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net position may serve over time as a useful indicator of a government's financial position. The following tables show that in the case of the District, assets/deferred outflows exceeded liabilities/deferred outflows by \$42,795,848.

	Net Position	
	2020	2019
Current and Other Assets	\$ 10,310,620	10,656,636
Capital Assets	43,195,339	43,230,218
Total Assets	53,505,959	53,886,854
Deferred Outflows	428,364	168,244
Total Assets/ Deferred Outflows	53,934,323	54,055,098
Long-Term Debt	3,342,825	4,532,516
Other Liabilities	1,511,483	1,725,807
Total Liabilities	4,854,308	6,258,323
Deferred Inflows	6,284,167	5,602,120
Total Liabilities/ Deferred Inflows	11,138,475	11,860,443
Net Position		
Net Investment in Capital Assets	40,255,705	39,863,145
Restricted	706,478	734,041
Unrestricted	1,833,665	1,597,469
Total Net Position	42,795,848	42,194,655

A large portion of the District's net position, \$40,255,705, or 94.1 percent, reflects its net investment in capital assets (for example, land, buildings, machinery, and equipment), less any related debt used to acquire those assets that is still outstanding. The District uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion, \$706,478, or 1.7 percent, of the District's net position represents resources that are subject to external restrictions on how they may be used. The remaining 4.3 percent, or \$1,833,665, represents unrestricted net position and may be used to meet the District's ongoing obligations to citizens and creditors.

Net Position - Beginning	42,194,655	43,020,882
Net Position-Ending	42,795,848	42,194,655

Net position of the District's governmental activities increased by 1.42 percent (\$42,194,655 in 2019 compared to \$42,795,848 in 2020). Entity-wide adjustments for capital assets (capital outlay, depreciation expense, and the net effect of disposals) were greater than the adjustments for long-term debt (compensated absences net activity, net pension liability, total OPEB liability, principal retirement, and debt issuance). Numbers related to these entity-wide adjustments can be found in the reconciliation of the statement of revenues, expenditures and changes in fund balances to the statement of activities in the basic financial statements. Unrestricted net position, the portion of net position that can be used to finance day-to-day operations without constraints, totaled \$1,833,665 at December 31, 2020, and increased from the prior year.

Governmental Activities

Revenues for governmental activities totaled \$8,708,376, while the cost of all governmental functions totaled \$8,107,183. This resulted in a surplus of \$601,193. In 2019, revenues of \$9,968,218 fell short of expenses of \$10,794,445, resulting in a deficit of \$826,227. Most notably, revenues in the current year decreased \$1,259,842 or 12.6 percent due to the impacts of the COVID-19 pandemic.

The following table graphically depicts the major revenue sources of the District. It depicts very clearly the reliance of property taxes and charges for services to fund governmental activities. It also clearly identifies the less significant percentage the District receives from replacement taxes, interest and miscellaneous income.

FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUNDS

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

The District's governmental funds reported combining ending fund balances of \$4,361,860, which is a decrease of \$212,472, or 4.6 percent, from last year's total of \$4,574,332. Of the \$4,361,860, \$1,787,711, or approximately 41.0 percent, of the fund balance constitutes unassigned fund balance.

The General Fund reported a deficit in fund balance for the year of \$357,614, a decrease of 12.9 percent. Revenues came in \$131,586 under budget and the District was budgeting for a decrease in fund balance of \$817,178. The operating increase to the fund was \$541,917 and this increase was due to overall operating cost controlling measures.

FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUNDS - Continued

Governmental Funds - Continued

The General Fund is the chief operating fund of the District. At December 31, 2020, unassigned fund balance in the General Fund was \$1,787,711, which represents 73.9 percent of the total fund balance of the General Fund. As a measure of the General Fund's liquidity, it may be useful to compare unassigned fund balance to total fund expenditures. Unassigned fund balance in the General Fund represents 42.4 percent of total General Fund expenditures.

At December 31, 2020, the Recreation Fund had a decrease in fund balance of \$51,096. The District budgeted for a decrease in the Recreation fund balance of \$27,994. The actual decrease to the fund balance was due to the effects of the COVID-19 pandemic.

The Debt Service Fund had a decrease in fund balance of \$5,229. Ending fund balance of \$141,730 is restricted to future debt service related expenditures.

The Capital Projects Fund had an increase in fund balance of \$201,467. This increase was mainly due to the decision to delay several capital projects due to the uncertainties surrounding the COVID-19 pandemic. Assigned fund balance of \$452,731 will be used to fund future capital needs of the District as determined through the annual budget process.

GENERAL FUND BUDGETARY HIGHLIGHTS

The General Fund actual revenues for the year totaled \$4,758,921 compared to budgeted revenues of \$4,890,507. Charges for services were \$146,261 under budget. General Fund actual expenditures for the year were \$590,681 under budget (\$4,217,004 actual compared to \$4,807,685 budgeted). The general government and culture and recreation functions' actual expenditures were lower than budgeted due to overall cost controlling measures.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

The District's investment in capital assets for its governmental activities as of December 31, 2020 was \$43,195,339 (net of accumulated depreciation). This investment in capital assets includes land, construction in progress, land improvements, buildings, infrastructure, machinery and equipment, and licensed vehicles.

CAPITAL ASSETS AND DEBT ADMINISTRATION - Continued

Debt Administration

At year-end, the District had total outstanding debt of \$2,805,000 as compared to \$3,210,000 the previous year, a decrease of \$405,000. The following is a comparative statement of outstanding debt:

	Long-Term Debt Outstanding	
	2020	2019
General Obligation Bonds	\$ 2,805,000	3,210,000

The District maintains an Aa2 rating from Moody's for general obligation debt. State statutes limit the amount of general obligation debt a non-home rule governmental entity may issue to 2.875 percent of its total assessed valuation. The current debt limit for the District is \$29,888,119. Additional information on the District's long-term debt can be found in Note 3 of this report.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

The District's elected and appointed officials considered many factors when setting the fiscal-year 2021 budget, tax rates, and fees that will be charged for its governmental activities. One of those factors is the economy, including unemployment rates, CPI, etc. In consideration of the economy, the District recognizes there may be continued impacts from the COVID-19 pandemic throughout the year, and has set the budget with that in mind.

Notes to the Financial Statements

December 31, 2020

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Mundelein Park and Recreation District (District) of Illinois is duly organized and existing under the provisions of the laws of the State of Illinois. The District is operating under the provisions of the District Code of the State of Illinois approved July 8, 1947 and under all laws amendatory thereto. The District operates under the board-manager form of government. The District provides recreation and other services to the residents of Mundelein which include recreation programs, park management, capital development, and general administration.

REPORTING ENTITY

In determining the financial reporting entity, the District complies with the provisions of GASB Statement No. 61 "The Financial Reporting Omnibus - an Amendment of GASB Statements No. 14 and No. 34," and includes all component units that have a significant operational or financial relationship with the District. Based upon the criteria set forth in the GASB Statement No. 61, there are no component units included in the reporting entity.

BASIS OF PRESENTATION

Government-Wide Statements

The District's basic financial statements include both government-wide (reporting the District as a whole) and fund financial statements (reporting the District's major funds). Both the government-wide and fund financial statements categorize primary activities as governmental. The District's general government and culture and recreation services are classified as governmental activities.

In the government-wide Statement of Net Position, the governmental activities column is (a) presented on a consolidated basis by column, and (b) reported on a full accrual, economic resource basis, which recognizes all long-term assets/deferred outflows and receivables as well as long-term debt/deferred inflows and obligations. The District's net position is reported in three parts: net investment in capital assets; restricted; and unrestricted. The District first utilizes restricted resources to finance qualifying activities.

The government-wide Statement of Activities reports both the gross and net cost of each of the District's functions (general government, culture and recreation, etc.). The functions are supported by general government revenues (property and personal property replacement taxes, certain intergovernmental revenues, interest, etc.). The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, which include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment.

MUNDELEIN PARK AND RECREATION DISTRICT, ILLINOIS

Notes to the Financial Statements

December 31, 2020

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

BASIS OF PRESENTATION - Continued

Government-Wide Statements - Continued

The net costs (by function) are normally covered by general revenue (property and personal property replacement taxes, charges for services, interest income, etc.).

The District does not allocate indirect costs. An administrative and maintenance service fee is charged by the General Fund to the other operating funds that is eliminated like a reimbursement (reducing the revenue and expense in the General Fund) to recover the direct costs of General Fund services provided (finance, personnel, legal, etc.).

This government-wide focus is more on the sustainability of the District as an entity and the change in the District's net position resulting from the current year's activities.

Fund Financial Statements

The financial transactions of the District are reported in individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprise its assets/deferred outflows, liabilities/deferred inflows, fund equity, revenues and expenditures/expenses. All of the District funds are reported as governmental funds. An emphasis is placed on major funds within the governmental category.

GASB Statement No. 34 sets forth minimum criteria (percentage of the assets/deferred outflows, liabilities/deferred inflows, revenues or expenditures/expenses of either fund category or the governmental and enterprise combined) for the determination of major funds. The District electively added funds, as major funds, which either had debt outstanding or specific community focus. The nonmajor funds are combined in a column in the fund financial statements. A fund is considered major if it is a primary operating fund of the District or meets the following criteria:

Total assets/deferred outflows, liabilities/deferred inflows, revenues, or expenditures/expenses of that individual governmental fund are at least 10 percent of the corresponding total for all funds of that category or type; and

Total assets/deferred outflows, liabilities/deferred inflows, revenues, or expenditures/expenses of the individual governmental fund are at least 5 percent of the corresponding total for all governmental funds combined.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

BASIS OF PRESENTATION - Continued

Fund Financial Statements - Continued

The various funds are reported by generic classification within the financial statements. The following fund types are used by the District:

Governmental Funds

The focus of the governmental funds' measurement (in the fund statements) is upon determination of financial position and changes in financial position (sources, uses, and balances of financial resources) rather than upon net income. The following is a description of the governmental funds of the District:

General Fund is the general operating fund of the District. It accounts for all revenues and expenditures of the District which are not accounted for in other funds. The General Fund is a major fund.

Special revenue funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes. The District maintains one major special revenue fund, the Recreation Fund. The Recreation Fund accounts for revenues, including property taxes and charges for services, and expenditures related to the establishment and maintenance of the following activities: sports and fitness, visual and performing arts, youth and adult general interest, camps, teens, preschoolers, seniors and aquatics.

Debt service funds are used to account for the accumulation of resources for the payment of general long-term debt principal, interest and related costs. The Debt Service Fund is treated as a major fund.

Capital projects funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities. The Capital Projects Fund, a major fund, accounts for financial resources to be used for the acquisition or construction of major capital facilities, equipment, and capital asset replacements.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

MEASUREMENT FOCUS AND BASIS OF ACCOUNTING

Measurement focus is a term used to describe “which” transactions are recorded within the various financial statements. Basis of accounting refers to “when” transactions are recorded regardless of the measurement focus applied.

Measurement Focus

On the government-wide Statement of Net Position and the Statement of Activities, governmental activities are presented using the economic resources measurement focus as defined below. In the fund financial statements, the “current financial resources” measurement focus or the “economic resources” measurement focus is used as appropriate.

All governmental funds utilize a “current financial resources” measurement focus. Only current financial assets/deferred outflows and liabilities/deferred inflows are generally included on their balance sheets. Their operating statements present sources and uses of available spendable financial resources during a given period. These funds use fund balance as their measure of available spendable financial resources at the end of the period.

The accounting objectives of the “economic resources” measurement focus is the determination of operating income, changes in net position (or cost recovery), financial position, and cash flows. All assets/deferred outflows, liabilities/deferred inflows (whether current or noncurrent) associated with their activities are reported.

Basis of Accounting

In the government-wide Statement of Net Position and Statement of Activities, governmental activities are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability/deferred inflow is incurred or economic asset used. Revenues, expenses, gains, losses, assets/deferred outflows, and liabilities/deferred inflows resulting from exchange and exchange-like transactions are recognized when the exchange takes place.

In the fund financial statements, governmental funds are presented on the modified accrual basis of accounting. Under this modified accrual basis of accounting, revenues are recognized when “measurable and available.” Measurable means knowing or being able to reasonably estimate the amount. Available means collectible within the current period or within sixty days after year end. The District recognizes property taxes when they become both measurable and available in accordance with GASB Codification Section P70. A sixty-day availability period is used for revenue recognition for all other governmental fund revenues. Expenditures (including capital outlay) are recorded when the related fund liability is incurred, except for general obligation bond principal and interest which are recognized when due.

MUNDELEIN PARK AND RECREATION DISTRICT, ILLINOIS

Notes to the Financial Statements

December 31, 2020

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

MEASUREMENT FOCUS AND BASIS OF ACCOUNTING - Continued

Basis of Accounting - Continued

In applying the susceptible to accrual concept under the modified accrual basis, those revenues susceptible to accrual are property taxes, interest revenue, and charges for services. All other revenues are not susceptible to accrual because generally they are not measurable until received in cash.

ASSETS/DEFERRED OUTFLOWS, LIABILITIES/DEFERRED INFLOWS, AND NET POSITION OR EQUITY

Cash and Investments

For purpose of the Statement of Net Position, the District's cash and cash equivalents are considered to be cash on hand, demand deposits, and cash with fiscal agent.

Investments are generally reported at fair value. Short-term investments are reported at cost, which approximates fair value. For investments, the District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. All of the District's investments are in 2a7-like investment pools that are measured at the net asset value per share determined by the pool.

Interfund Receivables, Payables and Activity

Interfund activity is reported as loans, services provided, reimbursements or transfers. Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures/expenses. Reimbursements are when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers.

Receivables

In the government-wide financial statements, receivables consist of all revenues earned at year-end and not yet received. Allowances for uncollectible accounts receivable are based upon historical trends and the periodic aging of accounts receivable. Major receivables balances for governmental activities include property taxes.

Prepays/Inventories

Inventories/prepays are valued at cost, which approximates market, using the first-in/first-out (FIFO) method. The costs of governmental fund-type inventories/prepays are recorded as expenditures when consumed rather than when purchased. Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaids in both the government-wide and fund financial statements.

Capital Assets

Capital assets purchased or acquired with an original cost of more than \$5,000, are reported at historical cost or estimated historical cost. Contributed assets are reported at acquisition value as of the date received. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred.

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. General capital assets are long-lived assets of the District as a whole. When purchased, such assets are recorded as expenditures in the governmental funds and capitalized. The valuation basis for general capital assets are historical cost, or where historical cost is not available, estimated historical cost based on replacement costs.

Depreciation on all assets is computed and recorded using the straight-line method of depreciation over the following estimated useful lives:

Land Improvements	20 Years
Buildings	20 - 40 Years
Infrastructure	25 - 75 Years
Machinery and Equipment	5 - 20 Years
Licensed Vehicles	5 - 20 Years

Deferred Outflows/Inflows of Resources

Deferred outflow/inflow of resources represents an acquisition/reduction of net position that applies to a future period and therefore will not be recognized as an outflow of resources (expense)/inflow of resources (revenue) until that future time.

Compensated Absences

The District accrues accumulated unpaid vacation and associated employee-related costs when earned (or estimated to be earned) by the employee. In accordance with GASB Statement No. 16, no liability is recorded for nonvesting accumulation rights to receive sick pay benefits.

All vacation pay is accrued when incurred in the government-wide fund financial statements. A liability for these amounts is reported in the governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental activities Statement of Net Position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as expenses at the time of issuance.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Net Position

In the government-wide financial statements, equity is classified as net position and displayed in three components:

Net Investment in Capital Assets - Consists of capital assets, including restricted capital assets, net of accumulated depreciation, and reduced by the outstanding balances of any bonds, mortgages, notes or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

Restricted - Consists of net position with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.

Unrestricted - All other net position balances that do not meet the definition of “restricted” or “net investment in capital assets.”

NOTE 2 - STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

BUDGETARY INFORMATION

The budget for all governmental fund types is prepared on the modified accrual basis of accounting, which is the same basis that is used in financial reporting. This method allows for comparability between budget and actual amounts. The budget was passed at the board meeting on December 23, 2019. The District adopts both an appropriation and a budget. The budget amounts, which are usually lower than the appropriation, are used for purposes of these financial statements. There may be some instances where expenditures may exceed the amount budgeted and appropriated. During the year, there was one appropriation amendment.

All appropriations lapse at the end of each fiscal year.

The District follows the following procedures in establishing the budget:

1. During October, staff presents a preliminary budget at a committee of the whole meeting.
2. During November, the Board of Commissioners reviews a tentative budget, which is placed on file and open for public inspection.
3. During December, the Board of Commissioners approves the budget.
4. The budget and appropriation ordinance is approved on or before December 31 of the fiscal year.

NOTE 3 - DETAIL NOTES ON ALL FUNDS

DEPOSITS AND INVESTMENTS

The District maintains a cash and investment pool that is available for use by all funds. Each fund type's portion of this pool is displayed on the combined balance sheet as "cash and investments." In addition, investments are separately held by several of the District's funds.

Permitted Deposits and Investments - Statutes authorize the District to make deposits/invest in commercial banks, savings and loan institutions, obligations of the U.S. Treasury and U.S. Agencies, obligations of States and their political subdivisions, credit union shares, repurchase agreements, commercial paper rated within the three highest classifications by at least two standard rating services, and the Illinois Park District Liquid Asset Fund.

The Illinois Park District Liquid Asset Fund allows Illinois park districts, forest preserves and joint recreational programs to pool their funds for investment purposes. The Illinois Park District Liquid Asset Fund is composed of finance officials and treasurers all of whom are employees of the Illinois public agencies, which are investors in the Illinois Park District Liquid Asset Fund. The Illinois Park District Liquid Asset Fund is not registered with the SEC as an investment company. Investments in the Illinois Park District Liquid Asset Fund are valued at the share price, the price for which the investment could be sold.

Interest Rate Risk, Concentration Risk, Credit Risk, and Custodial Credit Risk

At year-end, the carrying amount of the District's deposits totaled \$4,211,393 and the bank balances totaled \$4,358,567. At year-end, the District also had \$559,550 invested in the Illinois Park District Liquid Asset Fund.

Interest Rate Risk. Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The District's investment policy states it should invest its funds in a manner which will provide the highest investment return with the maximum security while meeting the daily cash flow demands of the District and conforming to all state and local statutes governing the investment of public funds, using the "prudent person" standard for managing the overall portfolio. The primary objective of the policy is safety (preservation of capital and protection of investment principal), liquidity and yield. The District's investment in the Illinois Park District Liquid Asset Fund has an average maturity of less than one year.

Concentration Risk. Concentration of credit risk is the risk of loss attributed to the magnitude of the District's investment in a single issuer. The District's investment policy does not mitigate concentration risk for investments. At year-end, the District does not have any investments over 5 percent of the cash and investment portfolio (other than investments issued or explicitly guaranteed by the U.S. government and investments in mutual funds, external investment pools, and other pooled investments).

DEPOSITS AND INVESTMENTS - Continued

Interest Rate Risk, Concentration Risk, Credit Risk, and Custodial Credit Risk - Continued

Credit Risk. Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. State law limits investments in commercial paper, corporate bonds and mutual funds to the top two ratings issued by nationally recognized statistical rating organizations. The District limits its exposure to credit risk by limiting investments of public funds to U.S. Treasury Bonds, Notes and Bills, other securities that are guaranteed by the full faith and credit of the United States of America, U.S. Government Securities, including U.S. Agencies and Instrumentalities, that are rated “AAA”, interest bearing savings and money market accounts, certificate of deposit and time deposits, and Illinois Park District Liquid Assets Funds. At year-end, the District’s investment in the Illinois Park District Liquid Asset Fund was rated AAAM by Standard & Poor’s.

Custodial Credit Risk. In the case of deposits, this is the risk that in the event of a bank failure, the District’s deposits may not be returned to it. The District’s investment policy requires pledging of collateral for all bank balances in excess of federal depository insurance and the amount of collateral provided shall not be less than 110 percent of the fair market value of the net amount of District funds on deposit at each financial institution. Further, the collateral should be held by the District, the Federal Reserve or kept in a safekeeping account by a third party and evidenced by a safekeeping receipt. At year-end, the entire amount of the bank balance of the deposits was covered by federal depository or equivalent insurance.

For an investment, this is the risk that in the event of the failure of the counterparty, the District will not be able to recover the value of its investment or collateral securities that are in the possession of an outside party. The District’s investment policy does not mitigate custodial credit risk for investments. At year-end, the District’s investment in the Illinois Park District Liquid Asset Fund is not subject to custodial credit risk.

INTERFUND TRANSFERS

Interfund transfers for the year consisted of the following:

Transfer In	Transfer Out	Amount
Capital Projects	General	\$ 900,000
Capital Projects	Recreation	80,000
		<u>980,000</u>

Transfers are used to move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them.

PROPERTY TAXES

Property taxes for 2019 attach as an enforceable lien on January 1 on property values assessed as of the same date. Taxes are levied by December of the subsequent fiscal year (by passage of a Tax Levy Ordinance). Tax bills are prepared by the County and are payable in two installments on or about June 1 and September 1. The County collects such taxes and remits them periodically.

FUND BALANCE CLASSIFICATIONS

In the governmental funds financial statements, the District considers restricted amounts to have been spent when an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available. The District first utilizes committed, then assigned and then unassigned fund balance when an expenditure is incurred for purposes for which all three unrestricted fund balances are available.

Nonspendable Fund Balance. Consists of resources that cannot be spent because they are either: a) not in a spendable form; or b) legally or contractually required to be maintained intact.

Restricted Fund Balance. Consists of resources that are restricted to specific purposes, that is, when constraints placed on the use of resources are either: a) externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments; or b) imposed by law through constitutional provisions or enabling legislation.

Committed Fund Balance. Consists of resources constrained (issuance of an ordinance) to specific purposes by the government itself, using its highest level of decision-making authority, the Board of Commissioners; to be reported as committed, amounts cannot be used for any other purpose unless the government takes the same highest-level action to remove or change the constraint.

Assigned Fund Balance. Consists of amounts that are constrained by the Board of Commissioners' intent to be used for specific purposes but are neither restricted nor committed. Intent is expressed by a) the Board of Commissioners itself or b) a body or official to which the Board of Commissioners has delegated the authority to assign amounts to be used for specific purposes. The District's highest level of decision-making authority is the Board of Commissioners, who is authorized to assign amounts to a specific purpose.

Unassigned Fund Balance. Consists of residual net resources of a fund that has not been restricted, committed, or assigned within the General Fund and deficit fund balances of other governmental funds.

Minimum Fund Balance Policy. The District's policy manual states that the General Fund should maintain a minimum assigned and unassigned fund balance equal to two to four months of budgeted operating expenditures. The Recreation Fund should maintain a minimum fund balance of no less than two months of operating expenditures.

JOINT VENTURE

The District is a member of the Special Recreation Association of Central Lake County (SRACLC), a cooperative formed by Member Agencies to provide community based Therapeutic Recreation services to individuals with disabilities and their families and to share the expenses of such programs on a cooperative basis. Contribution requirements are determined based on a percentage of the individual park district's equalized assessed valuation and population as defined. The District's 2020 contribution was \$225,064.

The District does not exercise direct oversight of the SRACLC, and accordingly, the Association has not been included in these basic financial statements. The audited financial statements of SRACLC are available at 290 Oakwood Road, Vernon Hills, IL 60061.

CONTINGENT LIABILITIES

Litigation

The District is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, in the opinion of the District's attorney, the resolution of these matters will not have a material adverse effect on the financial condition of the District.

Grants

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the District expects such amounts, if any, to be immaterial.

Financial Impact from COVID-19

In March 2020, the World Health Organization declared the COVID-19 virus a public health emergency. As of the date of this report, the extent of the impact of COVID-19 on the District's operations and financial position cannot be determined.

Losses exceeding the per occurrence self-insured and reinsurance limit would be the responsibility of the District.

As a member of PDRMA's Property/Casualty Program, the District is represented on the Property/Casualty Program Council and the Membership Assembly and is entitled to one vote on each. The relationship between the District and PDRMA is governed by a contract and by-laws that have been adopted by resolution of the District's governing body.

The District is contractually obligated to make all annual and supplementary contributions to PDRMA, to report claims on a timely basis, cooperate with PDRMA, its claims administrator and attorneys in claims investigations and settlement, and to follow risk management procedures as outlined by PDRMA. Members have a contractual obligation to fund any deficit of PDRMA attributable to a membership year during which they were a member.

PDRMA is responsible for administering the self-insurance program and purchasing excess insurance according to the direction of the Program Council. PDRMA also provides its members with risk management services, including the defense of and settlement of claims, and establishes reasonable and necessary loss reduction and prevention procedures to be followed by the members.

Since 89.34% of PDRMA's liabilities are reserves for losses and loss adjustment expenses which are based on an actuarial estimate of the ultimate losses incurred, the Member Balances are adjusted annually as more recent loss information becomes available.

Park District Risk Management Agency (PDRMA) Health Program

Since February 1, 1990, the District has been a member of the Park District Risk Management Agency (PDRMA) Health Program, a health insurance pool of park districts, special recreation associations, and public service organizations through which medical, vision, dental, life and prescription drug coverages are provided in excess of specified limits for the members, acting as a single insurable unit. The pool purchases excess insurance covering single claims over \$250,000. Until January 1, 2001 the PDRMA Health Program was a separate legal entity formerly known as the Illinois Park Employees Health Network (IPEHN).

Members can choose to provide any combination of coverages available to their employees, and pay premiums accordingly.

Illinois Municipal Retirement Fund (IMRF)

The District contributes to the Illinois Municipal Retirement Fund (IMRF), a defined benefit agent multiple-employer public employee retirement system that acts as a common investment and administrative agent for local governments and school districts in Illinois. IMRF issues a publicly available financial report that includes financial statements and required supplementary information for the plan as a whole, but not by individual employer. That report may be obtained online at www.imrf.org. The benefits, benefit levels, employee contributions, and employer contributions are governed by Illinois Compiled Statutes (ILCS) and can only be amended by the Illinois General Assembly.

Plan Descriptions

Plan Administration. All hired in positions that meet or exceed the prescribed annual hourly standard must be enrolled in IMRF as participating members. The plan is accounted for on the economic resources measurement focus and the accrual basis of accounting. Employer and employee contributions are recognized when earned in the year that the contributions are required, benefits and refunds are recognized as an expense and liability when due and payable.

Benefits Provided. IMRF has three benefit plans. The vast majority of IMRF members participate in the Regular Plan (RP). The Sheriff's Law Enforcement Personnel (SLEP) plan is for sheriffs, deputy sheriffs, and selected police chiefs. Counties could adopt the Elected County Official (ECO) plan for officials elected prior to August 8, 2011 (the ECO plan was closed to new participants after that date).

IMRF provides two tiers of pension benefits. Employees hired before January 1, 2011, are eligible for Tier 1 benefits. Tier 1 employees are vested for pension benefits when they have at least eight years of qualifying service credit. Tier 1 employees who retire at age 55 (at reduced benefits) or after age 60 (at full benefits) with eight years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any consecutive 48 months within the last 10 years of service, divided by 48. Under Tier 1, the pension is increased by 3% of the original amount on January 1 every year after retirement.

Employees hired on or after January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service. Participating employees who retire at age 62 (at reduced benefits) or after age 67 (at full benefits) with ten years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any 96 consecutive months within the last 10 years of service, divided by 96. Under Tier 2, the pension is increased on January 1 every year after retirement, upon reaching age 67, by the lesser of:

- 3% of the original pension amount, or
- 1/2 of the increase in the Consumer Price Index of the original pension amount.

Total	<u>208</u>

Contributions. As set by statute, the District's Regular Plan Members are required to contribute 4.50% of their annual covered salary. The statute requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. For the year-ended December 31, 2020, the District's contribution was 12.02% of covered payroll.

Net Pension Liability. The District's net pension liability was measured as of December 31, 2020. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

Actuarial Assumptions. The total pension liability was determined by an actuarial valuation performed, as of December 31, 2020, using the following actuarial methods and assumptions:

Actuarial Cost Method	Entry Age Normal
Asset Valuation Method	Market
Actuarial Assumptions	
Interest Rate	7.25%
Salary Increases	2.85% to 13.75%

For active members, the Pub-2010, Amount-Weighted, below-median income, General, Employee, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2020.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return to the target asset allocation percentage and adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

Asset Class	Target	Long-Term Expected Real Rate of Return

Discount Rate

The discount rate used to measure the total pension liability was 7.25%, the same as the prior valuation. The projection of cash flows used to determine the discount rate assumed that member contributions will be made at the current contribution rate and that District contributions will be made at rates equal to the difference between the actuarially determined contribution rates and the member rate. Based on those assumptions, the Fund's fiduciary net position was projected to be available to make all project future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all period of projected benefit payments to determine the total pension liability.

Discount Rate Sensitivity

The following is a sensitivity analysis of the net pension liability/(asset) to changes in the discount rate. The table below presents the pension liability/(asset) of the District calculated using the discount rate as well as what the District's net pension liability/(asset) would be if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current rate:

General Information about the OPEB Plan

Plan Description. The District's defined benefit OPEB plan, Mundelein Park and Recreation District's Retiree Benefit Plan (RBP), provides OPEB for all permanent full-time general employees of the District. RBP is a single-employer defined benefit OPEB plan administered by the District. Article 11 of the State Compiled Statutes grants the authority to establish and amend the benefit terms and financing requirements to the District Board. No assets are accumulated in a trust that meets the criteria in paragraph 4 of Statement 75.

Benefits Provided. RBP offers medical, prescription drug, dental and vision coverage. Retirees pay the full premium.

Plan Membership. As of September 30, 2020, the measurement date, the following employees were covered by the benefit terms:

INDIVIDUAL FUND DESCRIPTIONS

GENERAL FUND

The General Fund is used to account for all financial resources except those required to be accounted for in other funds.

SPECIAL REVENUE FUND

The Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than fiduciary funds or capital projects funds) that are legally restricted to expenditure for specified purposes.

Recreation Fund

The Recreation Fund is used to account for revenues, including property taxes and charges for services, and expenditures related to the establishment and maintenance of the following activities: sports and fitness, visual and performing arts, youth and adult general interest, camps, teens, preschoolers, seniors and aquatics.

DEBT SERVICE FUND

The Debt Service Fund is used to account for the accumulation of resources for the payment of general long-term debt principal, interest and related costs.

CAPITAL PROJECTS FUND

The Capital Projects Fund is used to account for financial resources to be used for the acquisition or construction of major capital facilities, equipment, and capital asset replacements.
