The regulations set forth herein shall not apply where necessary to make a reasonable accommodation for use of the Park System under the Americans With Disabilities Act. For purposes of this section, an all-terrain vehicle shall be defined as any motorized off-highway device 50 inches or less in width, having a manufacturer's dry weight of 600 pounds or less, traveling on three or more low-pressure tires, designed with a seat or saddle for operator use, and handlebars or steering wheel for steering control.

2.16 Use of Micromobility Devices

Micromobility Devices refer to a category of small, lightweight devices designed for personal transportation. Micromobility devices do not include “low speed electric scooters” as defined by the Illinois Vehicle Code, 625 ILCS 5/11-140.11, which are prohibited at all times within the Park System. These devices are typically designed for use in urban and suburban areas to facilitate short-distance travel. Common examples include:

- (a) Electric bicycles (e-bikes): Bicycles equipped with an electric motor that assists with pedaling (i.e., Class 1 e-bikes), making it easier to travel longer distances or up hills without excessive exertion. Bicycles powered by an electric motor controlled by a hand throttle rather than by pedaling (i.e., Class 2 and Class 3 e-bikes) are not permitted on District Property.
- (b) Hoverboards: Self-balancing boards with two wheels, powered by batteries.
- (c) Skateboards: Electric-powered skateboards used for short trips.
- (d) Segways: Two-wheeled, self-balancing personal transporters.

No Person using micromobility devices shall interfere with pedestrian use of sidewalks or vehicle use of the streets, or otherwise act negligently, recklessly or without due caution, or in any manner so as to endanger any Person or property nor use same where such use has been posted as prohibited.

When two or more Persons in a group are operating micromobility devices, they shall not ride abreast, but shall ride in single file.

No Person operating a micromobility device shall cling or attach any part of themselves or their micromobility device to any other moving vehicle.

The operator of a micromobility device emerging from an alley, driveway or building shall, upon approaching a sidewalk or the sidewalk area extending across any alleyway, yield the right-of-way to all pedestrians approaching on said sidewalk or sidewalk area, and upon entering the roadway shall yield the right-of-way to all vehicles approaching on said roadway.

No Person operating a micromobility device shall carry another Person on the same device. This restriction does not apply to tandem bicycles or child safety seats. In those cases, there shall be only the number of Persons on the bicycle as there are seats or saddle.

No Person shall operate an electric bicycle on District property between thirty minutes after sunset and thirty minutes before sunrise, without a clear, white, properly lighted headlight, visible under normal atmospheric conditions from the front therefore not nor less than 500 feet and firmly attached to the device, and without a red reflector firmly attached to the device, which is clearly visible in the headlight beam of an automobile for a distance of 500 feet to the rear of the bicycle.

No Person may operate a micromobility device on District playground surfaces, athletic fields, athletic courts, or sidewalks except small children riding three or more-wheeled bicycles while under the supervision and control of an adult. This restriction does not apply to operating a bicycle on a designated bicycle pathway.

No Person shall ride a micromobility device on any park district owned or managed street or path where signs are posted prohibiting riding micromobility devices on those streets or paths.

Micromobility devices shall not, at any time, in any place, be indiscriminately parked by anyone in such a manner as to actually or possibly interfere with pedestrians or traffic, or with Persons getting into or out of automobiles. No Person shall leave a micromobility device lying on the ground or pavement or set against trees or otherwise in a place that may create a safety hazard or interfere with the use of the area for recreational purposes. No Person shall move or in any manner interfere with, any micromobility device which is properly parked, nor shall any Person interfere with, or in any manner, hinder any Person from properly parking a micromobility device.

All micromobility devices, when operated on roadways, shall be kept to the right and shall be operated as nearly as practicable at the right-hand edge of the roadway or path.

No Person shall operate a micromobility device faster than is reasonable and proper, and every micromobility device shall be operated with reasonable regard for the safety of the rider and of other Persons and property.

Every Person operating a micromobility device within the District shall observe all federal, state, local and District traffic rules and regulations applicable to motor vehicles, except those provisions of this chapter which by their nature can have no application to the operation of a micromobility device and except as otherwise provided by this section.

Electric bicycles are only allowed on District trails if they are Class 1 electric bicycles. By federal standards, an electric bicycle is considered a “cycle” (not a motorized vehicle) as long as it meets the following criteria:

It must be low speed (an electric motor of less than 750 watts).

- (a) It must have a maximum speed of less than 20 miles per hour.
- (b) It must have functional pedals.
- (c) The rider must be at least 16 years of age.

Motorized bicycles or other similar devices propelled by gasoline, propane, or any other combustible fuel, are prohibited from District trails and park district owned roadways.

2.17 Use of Autocycles, Off-Highway Vehicle, All Terrain Vehicle, And Low-Speed Gas Bicycle

No Person shall drive, ride, or otherwise operate any autocycles, off-highway motorcycles, motor driven cycle, moped, recreational off-highway vehicle, all-terrain vehicle, and low-speed gas bicycle as defined by the Illinois Vehicle Code on District Property.

- d. Moped. A moped is a motor-driven cycle, with or without optional power derived from manually operated pedals, whose speed attainable in one mile is at least 20 mph but not greater than 30 mph and is equipped with a motor that produces 2 brake horsepower or less. If an internal combustion engine is used, the displacement shall not exceed 50 cubic centimeter displacement, and the power drive system shall not require the operator to shift gears.
- e. Recreational off-highway vehicle. Any motorized off-highway device designed to travel primarily off-highway, 64 inches or less in width, having a manufacturer's dry weight of 2,000 pounds or less for gas-powered engines or 3,000 pounds or less for electric-powered engines, traveling on 4 or more non-highway tires, designed with a non-straddle seat and a steering wheel for steering control, except equipment such as lawnmowers. The Grand Dominion agreement with Mundelein Park & Recreation District and Steeple Chase Golf Club supersedes section (e) only.
- f. All-terrain vehicle. Any motorized off-highway device designed to travel primarily off-highway, 50 inches or less in width, having a manufacturer's dry weight of 1,500 pounds or less, traveling on 3 or more non-highway tires, designed with a seat or saddle for operator use, and handlebars or steering wheel for steering control, except equipment such as lawnmowers.
- g. Low-speed gas bicycle. A 2-wheeled or 3-wheeled device with fully operable pedals and a gasoline motor of less than one horsepower or 15 cubic centimeter displacement that is operated at speeds of less than 20 miles per hour.

Any driver or operator of a motor vehicle who, having been given a visual or audible signal by a Police Officer directing such driver or operator to bring his vehicle to a stop, willfully fails or refuses to obey such direction, increases his speed, extinguishes his lights, or otherwise flees or attempts to elude the Officer, is guilty of a Class "B" misdemeanor. The signal given by the Police Officer may be by hand, voice, siren, or red or blue light, provided the Officer giving such signal be in Police uniform. If driving a vehicle, such vehicle shall be marked showing it to be an official Police vehicle.

2.19 Obedience to Officers

Authorized designees of the Park District and Officers of the Village are hereby authorized to direct traffic and parking in accordance with provisions of this Section, or in emergencies, as public safety or convenience may require. It shall be unlawful for any person to fail or refuse to comply with any lawful order, signal or direction of an authorized designee officer. Except in case of an emergency, it shall be unlawful for any person not authorized as an Authorized designee of the Park District and Officers to direct or attempt to direct traffic.

2.20 Illinois Vehicle Code Application
